Subject: FW: Map guide

Hi, Elizabeth, in talking to someone else, I was reminded of this tool we set up to facilitate overlays of GIS information on aerials or USGS topo. Might be helpful to you or others working in Pima County.

<http://gis.pima.gov/maps/cmo/rosemont/> is the link to the Rosemont mapguide site. You need to download Autodesk Mapguide to use this. (but it's free and easy). Note that most other maps are dated. Here is a pdf map.
